

Bras & Bra Cups

Bras or individual bra cups are designed for use in garments when a traditional bra will not work. They can be used in addition to, or as a replacement of, a traditional bra. First choose a style to fit the garment, then choose the proper cup size.

Sew-In Bra

Bra with soft cups to be stitched into swimwear and strapless or backless garments.

Sew-In Bikini Bra

A bikini shaped bra designed to be sewn into swimwear, halters and dresses. Trim the cups to fit the shape of the garment.

Self-Adhesive Bra

A porous, fabric bra with a self-adhesive backing designed for one time use. Bra provides the lift and support needed for plunging necklines, strapless or backless garments. Simply cut to desired size and garment shape and apply directly to skin.

Molded Foam Bra Cups

Designed to be sewn into swimwear, dresses and formalwear that require firm support and shaping.

Push-Up Bra Cups

Full-size push-up cups for inserting into bras. They help to form and re-shape the bustline.

Soft Molded Bra Cups

Cups provide soft shaping to swimwear, formalwear and lingerie and can be tacked into place.

Bust Enhancers

Enhancers are designed to fit inside a traditional bra, or to be used in addition to garment attached bra cups. Removable for use in multiple garments.

Half Size

Small-size enhancer designed to lift and shape all cup sizes. Use in traditional bras, garment attached bras, or by themselves inside formalwear and swimwear.

Tear Drop

Enhancer made to fit inside the bra to naturally shape and firm the bustline.

Push-Up

Enhancer with push-up feature to lift, shape and firm the bustline.

Full Size

Large enhancer fits inside the bra to provide the ultimate lift, shape and firming of the bustline.

Gel-Filled Bra Cups

Bra cups are gel-filled to provide a natural look, shape and feel. Easy to use and interchange between garments. Simply hand wash and air dry between uses.

Molded Gel-Filled Bra Cups

Add these bra cups to swimwear, dresses and formalwear for firm comfortable support. Can be tacked into place or positioned inside garment for a comfortable fit.

Bra Accessories

Bra-Back Extenders

Soft back insets with hooks on one end and eyes on the opposite end. Attach extender to existing bra hooks. Extender adds 1" to 3" to back of bra.

Shoulder Strap Pads

Pads attach to bra straps for extra support, providing comfort and easing pressure on shoulders.

Shoulder Strap Guards

Ideal for multiple straps. Keeps straps securely together and prevents them from slipping off shoulders.

Bra Strap Holders

Elastic holder secures straps at the back. Prevents visibility and keeps straps from slipping off shoulders. Suitable for use with any width of bra straps.

Bra Repairs

Bra-Back Repairs

Sew-in elastic replacement strip with two rows of eyes and separate hook replacement piece. Soft backing provides comfort and eliminates skin irritation.

Shoulder Straps & Accessories

Elastic Straps

Adjustable elastic straps for replacing existing straps or for new undergarment construction.

Lingerie Strap Slides & Rings

Use when constructing camisoles and slip dresses. Also great for headbands.

Dress & Garment Shields

Dress & Garment Shields

Protects clothing from stains and odors. Pin or hand tack shield to inside of garment over underarm seam. Shield absorbs odors and wetness. Can be hand or machine washed and laid flat to dry.

Disposable Garment Shields

Protects garment from stains and odors. Adhesive strips attach shield to inside of garment over underarm seam. Discard after use.

Maternity Panels

Stretch Maternity Panels

Stretchy polyester fabric panel used to convert existing garments into maternity wear or for use in new maternity garment construction.
